

# Input by civil society to the 2022 Asylum Report

Fields marked with \* are mandatory.

D e a r

C o l l e a g u e s ,

The production of the *Asylum Report 2022* is currently underway. The annual [Asylum Report series](#) present a comprehensive overview of developments in the field of asylum at the regional and national levels.

The report includes information and perspectives from various stakeholders, including experts from EU+ countries, civil society organisations, UNHCR and researchers. To this end, we invite you, our partners from civil society, academia and research institutions, to share with us your reporting on developments in asylum law, policy or practice in 2021 (and early 2022) by topic as presented in the online survey.

Please note that the Asylum Report does not seek to describe national systems in detail but rather to present key developments of the past year, including improvements and challenges which remain. Your input can cover practices of a specific EU+ country or the EU as a whole. You can complete all or only some of the sections.

All submissions are publicly accessible. For transparency, 2022 contributions will be published on the EUAA webpage. For reference, contributions to the 2021 Asylum Report by civil society organisations can be accessed [here](#), under 'Acknowledgements'. All contributions should be appropriately referenced. You may include links to supporting material, such as analytical studies, articles, reports, websites, press releases or position papers. If your organisation does not produce any publications, please make reference to other published materials, such as joint statements issued with other organisations. Some sources of information may be in a language other than English. In this case, please cite the original language and, if possible, provide one to two sentences describing the key messages in English.

The content of the Asylum Report is subject to terms of reference and volume limitations. Contributions from civil society organisations feed into EUAA's work in multiple ways and inform reports and analyses beyond the Asylum Report.

Your input matters to us and will be much appreciated!

\*Please complete the online survey and submit your contribution to the 2022 Asylum Report by **Monday, 21 February 2022**.\*

[Instructions](#)
