

Input by civil society to the 2022 Asylum Report

Fields marked with * are mandatory.

D e a r

C o l l e a g u e s ,

The production of the *Asylum Report 2022* is currently underway. The annual [Asylum Report series](#) present a comprehensive overview of developments in the field of asylum at the regional and national levels.

The report includes information and perspectives from various stakeholders, including experts from EU+ countries, civil society organisations, UNHCR and researchers. To this end, we invite you, our partners from civil society, academia and research institutions, to share with us your reporting on developments in asylum law, policy or practice in 2021 (and early 2022) by topic as presented in the online survey.

Please note that the Asylum Report does not seek to describe national systems in detail but rather to present key developments of the past year, including improvements and challenges which remain. Your input can cover practices of a specific EU+ country or the EU as a whole. You can complete all or only some of the sections.

All submissions are publicly accessible. For transparency, 2022 contributions will be published on the EUAA webpage. For reference, contributions to the 2021 Asylum Report by civil society organisations can be accessed [here](#), under 'Acknowledgements'. All contributions should be appropriately referenced. You may include links to supporting material, such as analytical studies, articles, reports, websites, press releases or position papers. If your organisation does not produce any publications, please make reference to other published materials, such as joint statements issued with other organisations. Some sources of information may be in a language other than English. In this case, please cite the original language and, if possible, provide one to two sentences describing the key messages in English.

The content of the Asylum Report is subject to terms of reference and volume limitations. Contributions from civil society organisations feed into EUAA's work in multiple ways and inform reports and analyses beyond the Asylum Report.

Your input matters to us and will be much appreciated!

*Please complete the online survey and submit your contribution to the 2022 Asylum Report by **Monday, 21 February 2022**.*

[Instructions](#)

Before completing the survey, please review the list of topics and types of information that should be included in your submission.

For each response, only include the following type of information:

- New developments and improvements in 2021 and new or remaining challenges; and
- Changes in policies or practices, transposition of legislation or institutional changes during 2021.

Please ensure that your responses remain within the scope of each section.

Contributions by topic

1. Access to territory and access to asylum procedures (including first arrival to territory and registration, arrival at the border, application of the non-refoulement principle, the right to first response (shelter, food, medical treatment) and issues regarding border guards)

2. Access to information and legal assistance (including counselling and representation)

3. Provision of interpretation services (e.g. introduction of innovative methods for interpretation, increase/decrease in the number of languages available, change in qualifications required for interpreters)

4. Dublin procedures (including the organisational framework, practical developments, suspension of transfers to selected countries, detention in the framework of Dublin procedures)

5. Special procedures (including border procedures, procedures in transit zones, accelerated procedures, admissibility procedures, prioritised procedures or any special procedure for selected caseloads)

6. Reception of applicants for international protection (including information on reception capacities – increase/decrease/stable, material reception conditions - housing, food, clothing and financial support, contingency planning in reception, access to the labour market and vocational training, medical care, schooling and education, residence and freedom of movement)

7. Detention of applicants for international protection (including detention capacity – increase /decrease/stable, practices regarding detention, grounds for detention, alternatives to detention, time limit for detention)

8. Procedures at first instance (including relevant changes in: the authority in charge, organisation of the process, interviews, evidence assessment, determination of international protection status, decisionmaking, timeframes, case management - including backlog management)

9. Procedures at second instance (including organisation of the process, hearings, written procedures, timeframes, case management - including backlog management)

10. Availability and use of country of origin information (including organisation, methodology, products, databases, fact-finding missions, cooperation between stakeholders)

11. Vulnerable applicants (including definitions, special reception facilities, identification mechanisms/referrals, procedural standards, provision of information, age assessment, legal guardianship and foster care for unaccompanied and separated children)

12. Content of protection (including access to social security, social assistance, healthcare, housing and other basic services; integration into the labour market; measures to enhance language skills; measures to improve attainment in schooling and/or the education system and/or vocational training)

INTEGRATION INTO THE LABOUR MARKET

The formation of asylum seekers to enter in the labour market in Italy is run mainly by the third sector. Having a national approach to the integration of asylum seekers into the labour market would be much more effective and efficient.

MEASURES TO ENHANCE LANGUAGE SKILLS

In Italy in 2021, due to the pandemic of COVID19, was possible to run language classes for A0, A1 and A2 levels online. Such methodology, while protecting people from getting the virus Covid-19, has posed serious obstacles in the learning process of the the asylum seekers population. Such obstacles may have their roots in a lack of digital literacy, scarce internet connection and finally in the incompatibility between the online run classes and the needs of beginners, which foresee an in person and active participation to the classes.

The level of Italian required to obtain the professional recognition in Italy is B2. A future challenge could be to allow the professional recognition to people who does not have a B2 (which is a very high level) but yet have a proficient language in a vehicular language.

Need to run courses that gives the right tools to Italian teachers onto how to teach Italian to foreigners.

HEALTHCARE

From the 16th of May, the Italian region Lazio has extended from 6 months to the duration of the international protection (included the period to appeal for refusing renewal of the residence permit), the exemption from the payment of national healthcare services and medicines to Asylum Seekers.

13. Return of former applicants for international protection

14. Resettlement and humanitarian admission programmes (including EU Joint Resettlement Programme, national resettlement programme (UNHCR), National Humanitarian Admission Programme, private sponsorship programmes/schemes and ad hoc special programmes)

15. Relocation (ad hoc, emergency relocation; developments in activities organised under national schemes or on a bilateral basis)

16. National jurisprudence on international protection in 2020 (please include a link to the relevant case law and/or submit cases to the [EUAA Case Law Database](#))

17. Other important developments in 2021

References and sources

18. Please provide links to references and sources and/or upload the related material in PDF format
