Initial reception is ensured in the humanitarian transit point - the BOK sports and events centre in Budapest - which is run in cooperation with charity organisations. The facility offers shelter, food, medical care, a supervised play area, special care for babies and information is provided on follow-up accommodation and travel.

Any persons in need of accommodation, food, medicine or any other type of aid can contact any of the following aid organisations:

- Hungarian Reformed Church Aid: https://jobbadni.hu/en/
- Magyar Máltai Szeretetszolgálat: https://www.maltai.hu/
- Hungarian Interchurch Aid: https://segelyszervezet.hu/en/

Long-term accommodation

Persons requesting temporary protection and persons with temporary protection are entitled to accommodation in a state reception facility. Usually, accommodation is available in shelters or through accommodation in private homes. Beneficiary of temporary protection may also receive means to obtain housing. For this, it is necessary to visit the district office (járási hivatal/kerületi hivatal) every month in person.

Access to labour market

Ukrainian nationals holding a biometric travel document may work in certain positions without a work permit immediately after their entry to Hungary. If they have a work permit, they may work in a broader list of positions for a period not exceeding 90 days after their entry in Hungary.

Applicants for temporary protection may work in certain positions without a work permit and in a broader list of positions if they have a work permit.
An applicant may also undertake community work during the procedural period which takes a maximum of $15 + 45$ days.

A person recognised as beneficiary of temporary protection may work in certain positions without a work permit. For employment in another type of position, the employment service issues the permit under a preferential procedure.

### Social welfare

Beneficiary of temporary protection are entitled to receive material reception conditions. A person working in Hungary or receiving income from the Hungarian or a non-Hungarian pension scheme is not entitled to the benefit.

Adults and minors over 16 years of age (if they are not attending a full-time education programme) are required to appear before the employment service within 5 working days of receiving the cash benefit. After 45 days from the date of receipt of the first amount of the benefit, the person is not entitled to the cash benefit, if they do not accept an offered job within community service (see the rules on employment hereunder).

### Public health

Beneficiaries of temporary protection have access to essential medical care free of charge. Certain medication and medical care for cancer patients and patients suffering from other chronic diseases is also available. The same rules apply for persons applying for temporary protection.

Persons from both groups can go to the competent health care institution with territorial responsibility.
