

The EUAA Case Law Database

The [EUAA Case Law Database](#) is an online public platform that:

- ✚ Identifies the latest and most relevant case law related to the Common European Asylum System (CEAS) issued by national and international courts;
- ✚ Provides one entry point to access judgments related to international protection from all EU+ countries;
- ✚ Overcomes the language barrier when searching for cases on asylum in EU+ countries with a summary of all cases in English; and
- ✚ Can be used to achieve convergence on CEAS by all stakeholders.

Based on [EU Regulation 2021/2303, Article 6](#), the database covers cases issued by:

- ✚ National courts, mainly decisions from upper courts;
- ✚ The Court of Justice of the European Union (CJEU);
- ✚ The European Court of Human Rights (ECtHR); and
- ✚ Quasi-judicial organs, such as United Nations treaty bodies and the Human Rights Committee (CCPR).

Consult the cases in:

- ✚ [Latest updates](#) for the latest registrations to the database;
- ✚ [Digest of cases](#) arranged chronologically, by country or by topic; and
- ✚ [Search bar](#) by keyword, specific year or period and relevant legislation.

Jurisprudence is included in the database from various sources of information:

- ✚ EUAA Information and Documentation System (IDS) on CEAS;
- ✚ EUAA Networks;
- ✚ EUAA reports and publications;
- ✚ UNHCR;
- ✚ Civil society organisations;
- ✚ Academia.

Overviews of [judicial institutions](#) and [civil society/academia databases](#) are also available. These do not replace existing court or case law databases so references to official sources are included in each case registered in the database.

Users can submit jurisprudence through the online form under the tab '[Submit new case law](#)'. The information is reviewed and validated by the EUAA prior to being published.

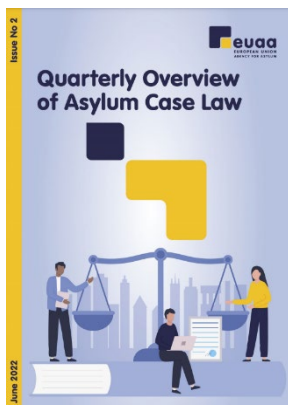

New Case Registrations

All users may propose relevant case law by using the 'Submit New Case Law' function.
