

# Input by civil society organisations to the Asylum Report 2026

Fields marked with \* are mandatory.

Dear Colleagues,

The production of the Asylum Report 2026 is currently underway. The annual [Asylum Report](#) presents an overview of developments in the field of international protection in Europe.

The report includes information and perspectives from various stakeholders, including experts from EU+ countries, civil society organisations, researchers and UNHCR. To this end, we invite you, our partners from civil society, academia and research institutions, to share your reporting on developments in asylum law, policies or practices in 2025 by topic as presented in the online survey (**'Part A' of the form**).

We also invite you to share with us any publications your organisation has produced throughout 2025 on issues related to asylum in EU+ countries (**'Part B' of the form**). These may be reports, articles, recommendations to national authorities or EU institutions, open letters and analytical outputs. Your input can cover information for a specific EU+ country or the EU as a whole. You can complete all or only some of the sections.

Please note that the Asylum Report does not seek to describe national systems in detail but rather to present key developments of the past year, including improvements and challenges which remain.

All submissions are publicly accessible. For transparency, contributions will be published on the EUAA webpage and contributing organisations will be listed under the [Acknowledgements](#) of the report.

All contributions should be appropriately referenced. You may include links to supporting material, such as analytical studies, articles, reports, websites, press releases, position papers. Some sources of information may be in a language other than English. In this case, please cite the original language and, if possible, provide one to two sentences describing the key messages in English.

The content of the Asylum Report is subject to terms of reference and volume limitations. Contributions from civil society organisations feed into EUAA's work in multiple ways and inform reports and analyses beyond the Asylum Report.

***NB: Similarly to last year, this year's edition of the Asylum Report will be leaner and more analytical, with streamlined thematic sections. The focus will be on key trends in the field of asylum rather than on individual developments. For this reason, information shared by respondents to this call may be incorporated in the Asylum Report in a format different than in the past years. It will also feature prominently as info boxes in the [country overviews](#).***

Your input matters to us and will be much appreciated!

**\*Please submit your contribution to the Asylum Report 2026 by Friday, 9 January 2026.\***

## Contact details

## General observations

---

**Before sharing information by thematic area, please provide your general observations on asylum developments as indicated in the following three fields:**

What areas would you highlight where important developments took place in the country/countries you cover?

We would like to highlight how changes to the 2025 USDOS human rights reports impact the country of origin information landscape, and threaten to undermine fair and evidence-based asylum decisions, see this blog: (<https://asylos.org/new-usdos-reports-downplay-human-rights-abuses/>)

What are the areas, where only few or no developments took place?

Would you have any observations to share specifically about the implementation of the Pact on Migration and Asylum in the national context of the country/ countries you cover?

## **PART A: Contributions by topic**

---

**Please share your reporting on developments in asylum law, policies or practices in 2025 by topic. Kindly make sure that you provide information on:**

- New developments and improvements in 2025 and new or remaining challenges;
- Changes in legislation, policies or practices, or institutional changes during 2025.

**1. Access to territory and access to the asylum procedure (including first arrival to territory and registration, arrival at the border, application of the non-refoulement principle, the right to first response (shelter, food, medical treatment) and issues regarding border guards)**

**2. Access to information and legal assistance (including counselling and representation)**

**3. Provision of interpretation services (e.g. introduction of innovative methods for interpretation, increase/decrease in the number of languages available, change in qualifications required for interpreters)**

**4. Dublin procedures (including the organisational framework, practical developments, suspension of transfers to selected countries, detention in the framework of Dublin procedures)**

**5. Special procedures (including border procedures, procedures in transit zones, accelerated procedures, admissibility procedures, prioritised procedures or any special procedure for selected caseloads)**

**6. Reception of applicants for international protection (including information on reception capacities – increase/decrease/stable, material reception conditions - housing, food, clothing and financial support, contingency planning in reception, access to the labour market and vocational training, medical care, schooling and education, residence and freedom of movement)**

**7. Detention of applicants for international protection (including detention capacity – increase /decrease/stable, practices regarding detention, grounds for detention, alternatives to detention, time limit for detention)**

**8. Procedures at first instance (including relevant changes in: the authority in charge, organisation of the process, interviews, evidence assessment, determination of international protection status, decisionmaking, timeframes, case management - including backlog management)**

**9. Procedures at second instance (including organisation of the process, hearings, written procedures, timeframes, case management -including backlog management)**

**10. Issues of statelessness in the context of asylum (including identification and registration)**

**11. Children and applicants with special needs (special reception facilities, identification mechanisms/referrals, procedural standards, provision of information, age assessment, legal guardianship and foster care for unaccompanied and separated children)**

**12. Content of protection (including access to social security, social assistance, healthcare, housing and other basic services; integration into the labour market; measures to enhance language skills; measures to improve attainment in schooling and/or the education system and/or vocational training)**

**13. Return of former applicants for international protection**

---

**14. Resettlement and humanitarian admission programmes (including EU Joint Resettlement Programme, national resettlement programme (UNHCR), National Humanitarian Admission Programme, private sponsorship programmes/schemes and ad hoc special programmes)**

**15. National jurisprudence on international protection in 2025 (please include a link to the relevant case law and/or submit cases to the [EUAA Case Law Database](#))**

**16. Other important developments in 2025**

## **PART B: Publications**

---

**1. If available online, please provide links to relevant publications produced by your organisation in 2025.**
